

## Programming (Visual Basic) Exercise

### Weather

#### **Skills:**

If/elseif  
Logical operators

#### **Specifications:**

Program is as it looks – choose a day, choose the weather – and a message is returned accordingly. The following messages will be returned:

If it's a Saturday or Sunday (Hint: use the logical operator 'or' to test)  
If it's sunny, the message is: "Time for the beach!!"  
Else the message is: "Might as well catch a movie"

...else it's a weekday.

If it's Monday and sunny, the message is: "I hate Mondays! "  
Else if it's Friday, the message is: "YAY!! Almost the weekend!"  
Else if it's sunny, the message is: "It sucks to work when it's fine out"  
Else the message is: "Glad it's raining, it might fine up for the weekend!"

Remember to be good little bunnies and use Option Strict On  
Also remember to code your exit and clear buttons!
